AUG · SEP 2026

Thank you for walking with us.

Impact Newsletter

August and September 2026

- 01 Top of the class at Nkoanekoli
- 02 240 calculators for 6 partner schools
- 03 143rd of 1,538 in the national competition

Two months, *in numbers*

August and September were full months at Numbers Foundation. Pupils prepared for their national examinations, Numbers Charity pupils at Nkoanekoli Primary School climbed to the top of their classes, calculators reached our six partner schools, and our students took on the national mathematics competition. Here is the picture in a few numbers.

240

calculators handed to partner schools

Ready for the *big exams*

In Primary

In September, pupils across the country sat their end of primary school examinations, and Giveback with Math was there to prepare ours. In the last weekend before the exam, Standard Seven pupils worked through problems in smaller groups, so that no one got left behind.

Exam time, outside the classroom

In Secondary

Our secondary school students are getting ready for the national examination that ends their secondary education. Regular group discussions help them revise together and prepare for what is coming.

“

Regular group discussions, ready for the national exam.

GIVEBACK WITH MATH

Primary and Secondary

Top of the class

We were amazed by the massive improvement in the performance of students under Numbers Charity at Nkoanekoli Primary School. Many of them managed to top their classes, and three of them took first place.

Ethan Giliad

CLASS THREE

1st in class

Ainess Isaya

CLASS FOUR

1st in class

Rebecca Ayubu

CLASS SIX

1st in class

Three pupils, three first places.

Six more Numbers Charity pupils join them in the top ten. Turn the page.

SPOTLIGHT

Amosi Ayubu

3RD IN CLASS THREE

Amosi was not a regular student because he lacked uniforms. Today he is one of the top students in his class, with regular attendance at school.

A uniform, and a seat at the top.

CALCULATOR DISTRIBUTION

240 calculators, 6 schools

We distributed 240 calculators across our 6 partner schools. Together these schools have 690 students in Form Three and 637 in Form Four, and roughly 200 or more students in each school that need calculators.

OUR TARGET AGAINST WHAT WE DELIVERED

calculators per school

Target: 100

Delivered: 40

40

per school

A strong start, and there is still ground to cover.

Nane Nane

8 August · National Mathematics Competition

Every year on 8 August, known as Nane Nane, the Mathematical Association of Tanzania (MAT) organises a National Mathematics Competition for schools across Tanzania.

Numbers Foundation decided to support students from our partner schools to take part, and they performed extremely well.

143

OUT OF 1,538

ranked nationally

One of our girls, 143rd out of 1,538 students nationally. We are proud of every student who took part.

Asante sana

Thank you for being part of this journey.
